

WÄSTBYGG

Recommendation

Company „RCP Construction“ has provided delivery and the assembly of precast concrete elements on site Arkens väg , Haninge, Sweden. Through the assembly period subcontractor proved the image of a company that is well organized, professional and always seeking the highest standards and work culture.

Site management was working very professionally and responsibly during the entire period of assembly. The work they have carried out was well organized and planned. Communication between “RCP Construction” the General contractor and other entrepreneurs was always maintained in high level, therefore site managers always reacted fast to unforeseen situations and looked for the best solution to them that would work good for everyone on site.

KV Arkens väg's customer and general contractor Wästbygg is satisfied with the quality of executed work and can recommend JSC “RCP Construction” as a company that is 100% professional, well organized and being able to carry out work according to agreed work schedule and guaranteeing high quality.
